PROFESSIONAL SUMMARY

Registered Nurse with 7+ years of clinical experience working directly with clinicians and patients, with firsthand insight into where AI and technology can support, or fall short of, real clinical care. Proven ability to rapidly learn new clinical workflows, Epic configurations, and organizational processes across academic medical centers, community hospitals, and travel assignments. Skilled at translating complex clinical information for people with varying levels of knowledge and adapting education to build understanding, confidence, and trust. Experienced in training clinicians and collaborating across multidisciplinary teams, bringing a frontline perspective to the development and adoption of healthcare technology.

PROFESSIONAL EXPERIENCE

TRAVEL REGISTERED NURSE

Multiple Health Systems Nationwide | March 2025 - Present

- Rapidly learn new healthcare organizations, Epic configurations, clinical workflows, policies, and team practices, becoming independently functional within each new environment.
- Educate patients and families on complex clinical conditions, procedures, medications, and care plans, adapting explanations to different levels of health literacy and prior knowledge.
- Coordinate complex patient care across physicians, nursing leadership, anesthesia, neonatal specialists, and ancillary departments in high-acuity environments.
- Precept and orient nurses to hospital-specific workflows, documentation practices, policies, and processes.
- Maintain thorough, precise clinical documentation with continuity of care in mind, ensuring subsequent clinicians can quickly understand patient status, interventions, clinical decisions, and changes over time.

LABOR, DELIVERY, RECOVERY & POSTPARTUM REGISTERED NURSE

CommonSpirit St. Anthony Summit | Frisco, CO | May 2024 - Oct 2024

- Transitioned from a highly resourced academic medical center to a small community LDRP environment requiring significantly greater clinical autonomy, broader scope, and independent decision-making.
- Provided comprehensive labor, postpartum, and newborn care in an 8-bed LDRP with a Level I nursery, frequently working with a two-nurse unit team while additional clinical support operated on call with up to a 60-minute response time.
- Developed expanded newborn stabilization and emergency-response capabilities to provide immediate care when specialty neonatal support was not onsite.
- Managed competing unit demands and patient assignments during emergencies, independently prioritizing care while coordinating limited onsite and on-call resources.

CORE COMPETENCIES

Clinical Operations

Clinical Workflows • Workflow Evaluation • Training & Onboarding • Care Coordination

Education & Communication

Clinical Education & Knowledge Translation • Patient & Client Education • Relationship Building • Stakeholder Communication • Interdisciplinary Collaboration

Technology & Healthcare Systems

PROFESSIONAL EXPERIENCE

LABOR & DELIVERY REGISTERED NURSE / PRECEPTOR

Denver Health Medical Center | Denver, CO | Oct 2022 - Dec 2024

- Provided labor and delivery care in one of Colorado's busiest L&D units, averaging 300+ births per month across L&D, OB triage, antepartum, operating room, and recovery workflows.
- Precepted and mentored newly hired nurses and incoming travelers, translating complex clinical workflows, documentation requirements, policies, and unit practices into practical guidance supporting independent practice.
- Educated patients and families through complex and unfamiliar clinical situations, tailoring explanations to their baseline knowledge, questions, and immediate needs.
- Participated in hospital quality initiatives focused on clinical protocols, patient safety, consistency of care, and documentation practices.

REGISTERED NURSE

Restore Hyper Wellness | Denver, CO | Jun 2023 - Oct 2024

- Administered IV therapies and IM injections and supported hyperbaric oxygen services while maintaining accurate electronic clinical documentation.
- Supported day-to-day clinical operations and client experience within a membership-based wellness organization.
- Built long-term client relationships through education, service delivery, and ongoing support, including guiding new clients through account setup, required paperwork, services, and care expectations.
- Educated clients on wellness services and treatment options, translating clinical information into clear, accessible guidance based on their questions and level of familiarity.

PROJECTS

PROFESSIONAL PORTFOLIO

nicoleanneward.com | Generative AI-Assisted Web Development

- Designed and built a professional portfolio website using Claude Code and ChatGPT. Used iterative prompting to generate and refine code, troubleshoot issues, and add new webpages and functionality.
- Managed source code through GitHub and iteratively developed the site from concept through deployment.

LEADERSHIP & PROGRAM COORDINATION

Peer Mentor Coordinator

University of Colorado College of Nursing

Led a university-wide peer mentorship program, recruiting and coordinating a team of 13 student leaders supporting 178 nursing students through tutoring, clinical simulations, and orientation activities.

Coordinated communication and alignment among faculty, student leaders, and program participants to support program delivery.

ADDITIONAL RELEVANT EXPERIENCE

Advanced Care Partner - Float Pool

University of Colorado Hospital | Aurora, CO | Dec 2020 - Sep 2022

Floated across ICU, step-down, and inpatient units, supporting patient care across different clinical teams and workflows.

Performed IV insertions, venipuncture, line care, patient monitoring, mobility, nutrition, and other direct-care responsibilities.

Medical Assistant

CHPG Primary Care Southmoor | Greenwood Village, CO | Sep 2019 - Sep 2022

Supported physicians and patients in a high-volume outpatient primary care environment, including patient histories, vital signs, immunizations, and diagnostic testing.

Coordinated Epic documentation and communication among providers to support continuity of care.

Membership & Development Intern

Conservation Colorado

Conducted research and data analysis on member engagement, communications, donations, and fundraising while supporting membership and development operations.
